FOR IMMEDIATE RELEASE

### **PlymoVent® Corporation and Gibson Performance Exhaust Finalize Strategic Partnership**

**Enables PlymoVent Exhaust Removal Systems' Connection to Vehicles that  
Comply with EPA07 Diesel Emission Standards**

**Cranbury, NJ – January 30, 2008** - PlymoVent Corp., the world wide leader in source capture exhaust removal systems and Gibson Performance Exhaust, setting the standards in the exhaust aftermarket industry, have finalized a strategic partnership.

The newly formed alliance gives PlymoVent customers (existing and future) the ability to utilize tailpipe conversion kits to attach PlymoVent Exhaust Removal Systems to specific and unique apparatus and chassis manufacturer tailpipe designs. This includes vehicles that comply with the new Environmental Protection Agency 2007 (EPA07) diesel emission standards.

“PlymoVent’s continued commitment to deliver the necessary equipment to provide our customers a healthy working environment was a key component when looking for a strategic partner. Gibson’s market success in designing and manufacturing a superior product was the perfect fit” stated Brad Pitzl, General Manager, PlymoVent Corp. in North America.

Founded in 1990 Gibson Performance Exhaust (Corona, CA) manufactures and distributes Performance Cat-Back Exhaust, Headers and Universal Mufflers for Trucks & SUVs, Diesel, Muscle Cars, Marine, Off Road, RV and the Power sports market. Gibson is a registered compliant manufacturer with the California Air Resources Board (CARB) and meets applicable emissions regulations.

For more information on specific applications, please call your local PlymoVent Dealer, or contact PlymoVent at 800.644.0911, [www.plymovent.com](http://www.plymovent.com).

#### **About PlymoVent**
